

## Sani It Hand Sanitiser

### PRODUCT DESCRIPTION:

Sani It is a high performance hand sanitiser gel designed to quickly eliminate bacteria on the skin and prevent microbial cross-contamination. It instantly provides hand sanitisation without the need for water.

It is a gentle, plant-based quick-drying gel that is enriched with moisturisers to help reduce the potential to stress or dry skin out. The green apple fragrance is kind to the nose and leaves a comforting, refreshing residual aroma on hands.

This formulation kills 99.9% of germs and is an ideal way to maintain hand hygiene when unable to wash hands.

Perfect to provide peace of mind for staff and clients and to help maintain hygiene standards in the salon.

### DIRECTIONS FOR USE:

Dispense a sufficient amount of gel onto hands and rub together until dry.
