

Soap It Medicated Hand Soap

PRODUCT DESCRIPTION:

Soap It is a medicated liquid hand soap that is designed to eliminate bacteria on the skin. It is highly effective against a broad spectrum of microorganisms and suitable for all situations where reducing the possibility of microbial cross-contamination is important.

Gentle and emollient-rich, it helps condition the skin whilst reducing transient bacteria. The green apple, berry fragrance leaves behind a gentle and comforting residual aroma on the skin.

This product is suitable for frequent hand washing and an ideal way to maintain hand hygiene for staff and clients.

DIRECTIONS FOR USE:

Dispense a sufficient amount of soap onto hands and wash with water for a minimum of 15 seconds, taking care to wash hands thoroughly.

Rinse with water and dry with paper towel
